

**MAY OUR TROOPS HAVE THE COMFORT KNOWING
AMERICA HURDLES OVER THEM UNDER HER WING
AS "TIME" MARCHES FORWARD FOR FREEDOM.**

**A WOUNDED WING TO HONOR AND CHERISH OUR
FALLEN TROOPS AND TAKE "TIME" TO THANK THEIR
FAMILIES FOR THEIR SACRIFICE.**

Our troops need to feel America protecting them and give them the comfort of being under her wing with support as they serve our country for freedom. We must always remember our fallen troops and their families. I believe this tribute would remind everyone that "time" marches on and the high part of the Eagle's wing pointing at the time. With the right angle, size of Eagle and construction it should really work. This tribute would express the true meaning of our country supporting our troops under our wing of America and remembering our fallen with the wounded wing. The committee may make adjustments and the wing don't have to be wounded if to painful. The sundial could have the branches of service on it or on the ribbons.
